

# S-E-A Marine / Admiralty Practice

Forensic Engineering,  
Investigation and Analysis  
Since 1970

Know.

Maritime losses are as varied and complex as the oceans and waterways themselves. S-E-A's maritime engineers and consultants have helped our clients discover the truth on cases ranging from super container ships, oil rigs, and offshore wind farms to tug and barge, megayachts, and recreational vessels since 1970.

## Forensic Engineering, Investigation, and Analysis since 1970
